## BLACK RANCH

The meat specialties of the Angus and Hereford cattle under this registered trademark from Argentina are among the best in the world. In the balanced climate of the region, the cattle graze all year round in the seemingly endless green expanses of the Pampas and find their feed among well over 100 different grasses and herbs with ideal nutritional value in order to develop magnificently. This form of natural rearing results in a healthy piece of meat of the highest quality and the best taste.
