ANTONIUS CAVIAR

Our caviar producer Antonius Caviar, who is primarily a sturgeon farmer, is one of the few companies in the world that only obtains its roe from fish from its own farms. This ensures a significant influence on the continuous quality of this first-class product right from the start. Respectful use of natural resources is part of this producer's self-image. Surrounded and touched by nature, he maintains the artisanal rituals that are passed down from generation to generation.

- ✓ Long-standing breeding tradition, with products exclusively from our own farms
- ✓ Fresh, unpasteurized caviar from non-ovulated sturgeon eggs
- ✓ Silky soft texture and the caviar melts tenderly on the palate

PASTA

La Pasta di Aldo

The great secret of this pasta is that, depending on the pasta format, the dough is kneaded with a different durum wheat semolina mixture and gently dried. Furthermore, only regional products are used, the quality of which can be seen in the finished pasta, which retains both consistency and color even after cooking and mixing with sugo.
